

HOW TO DISABLE POP UP BLOCKERS

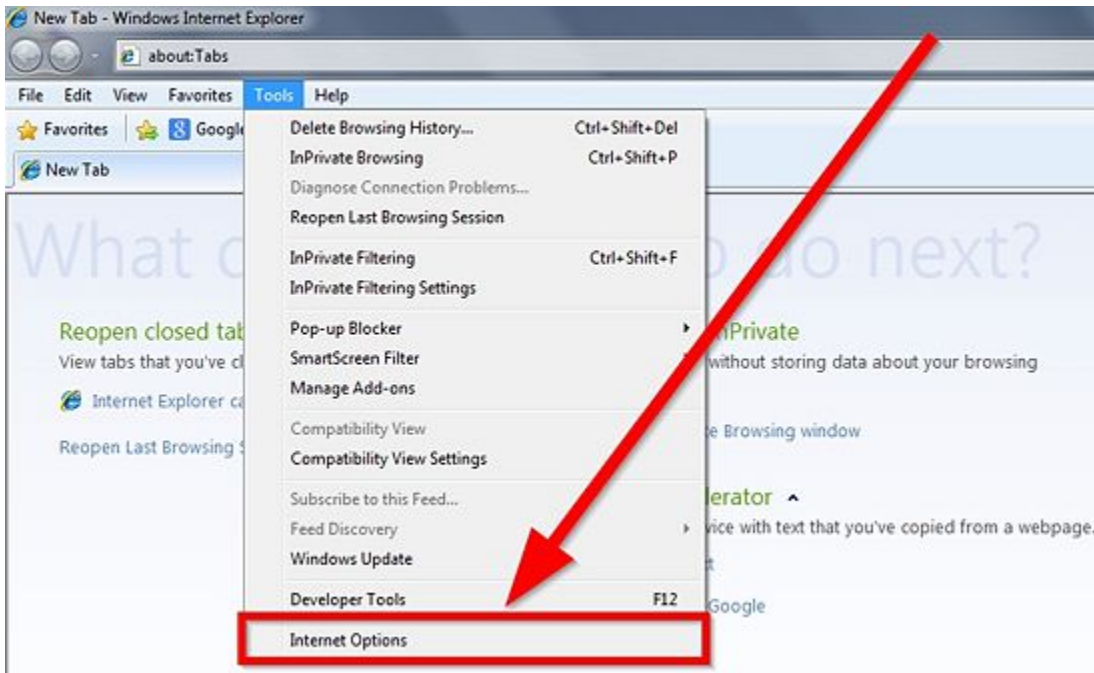

Open your Internet Explorer browser.

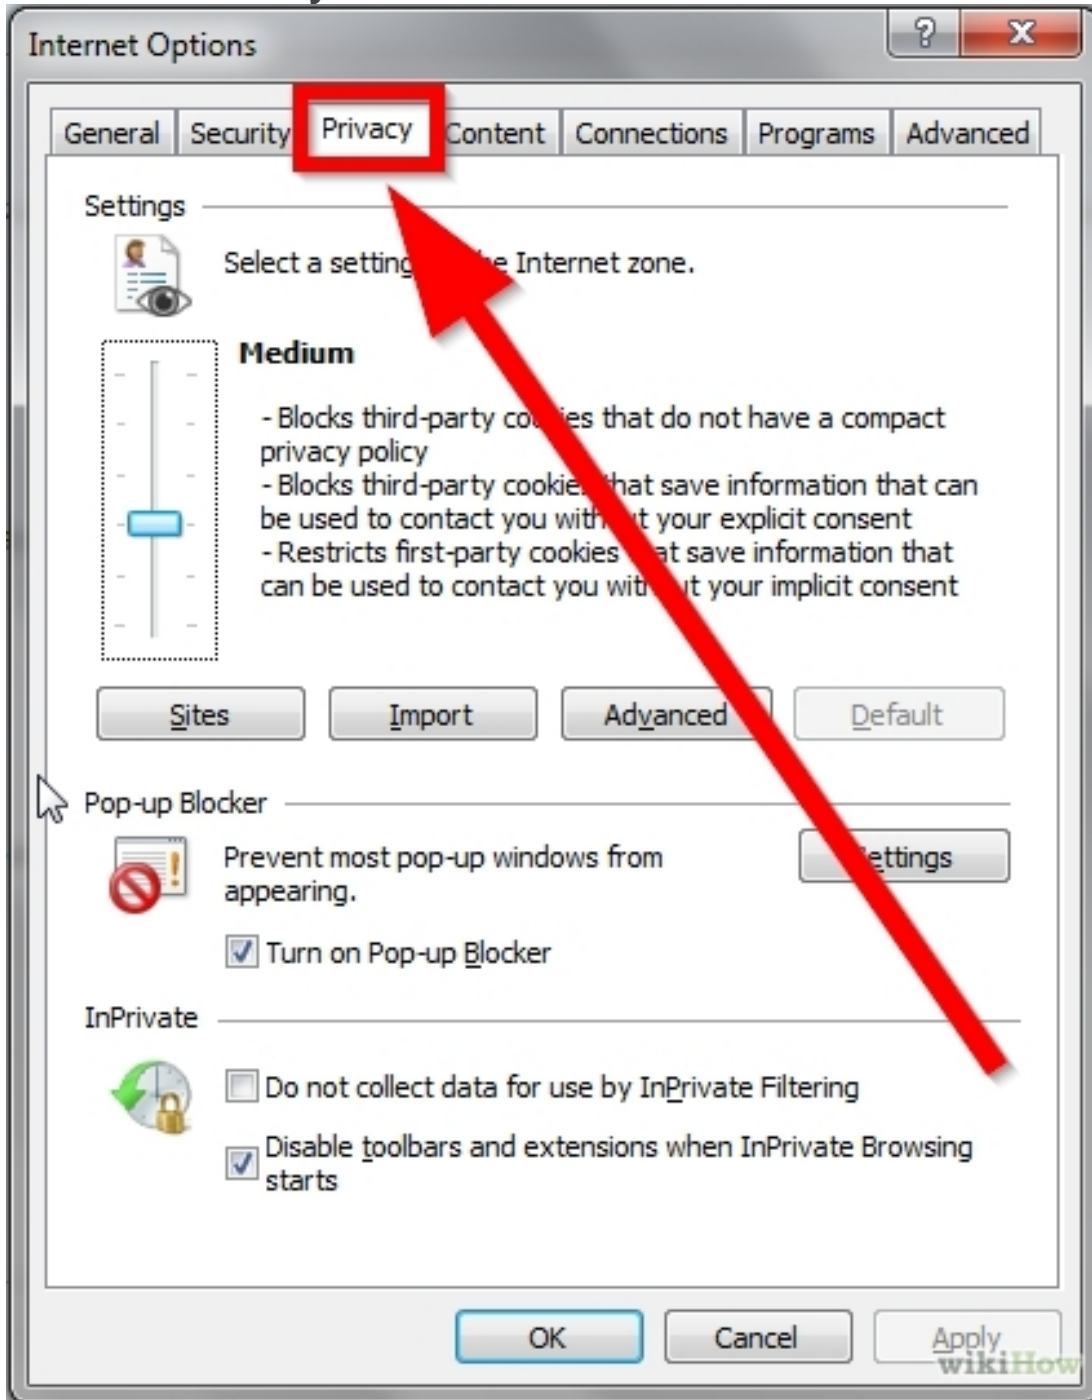

Click the Gears button from the top right corner of the screen.

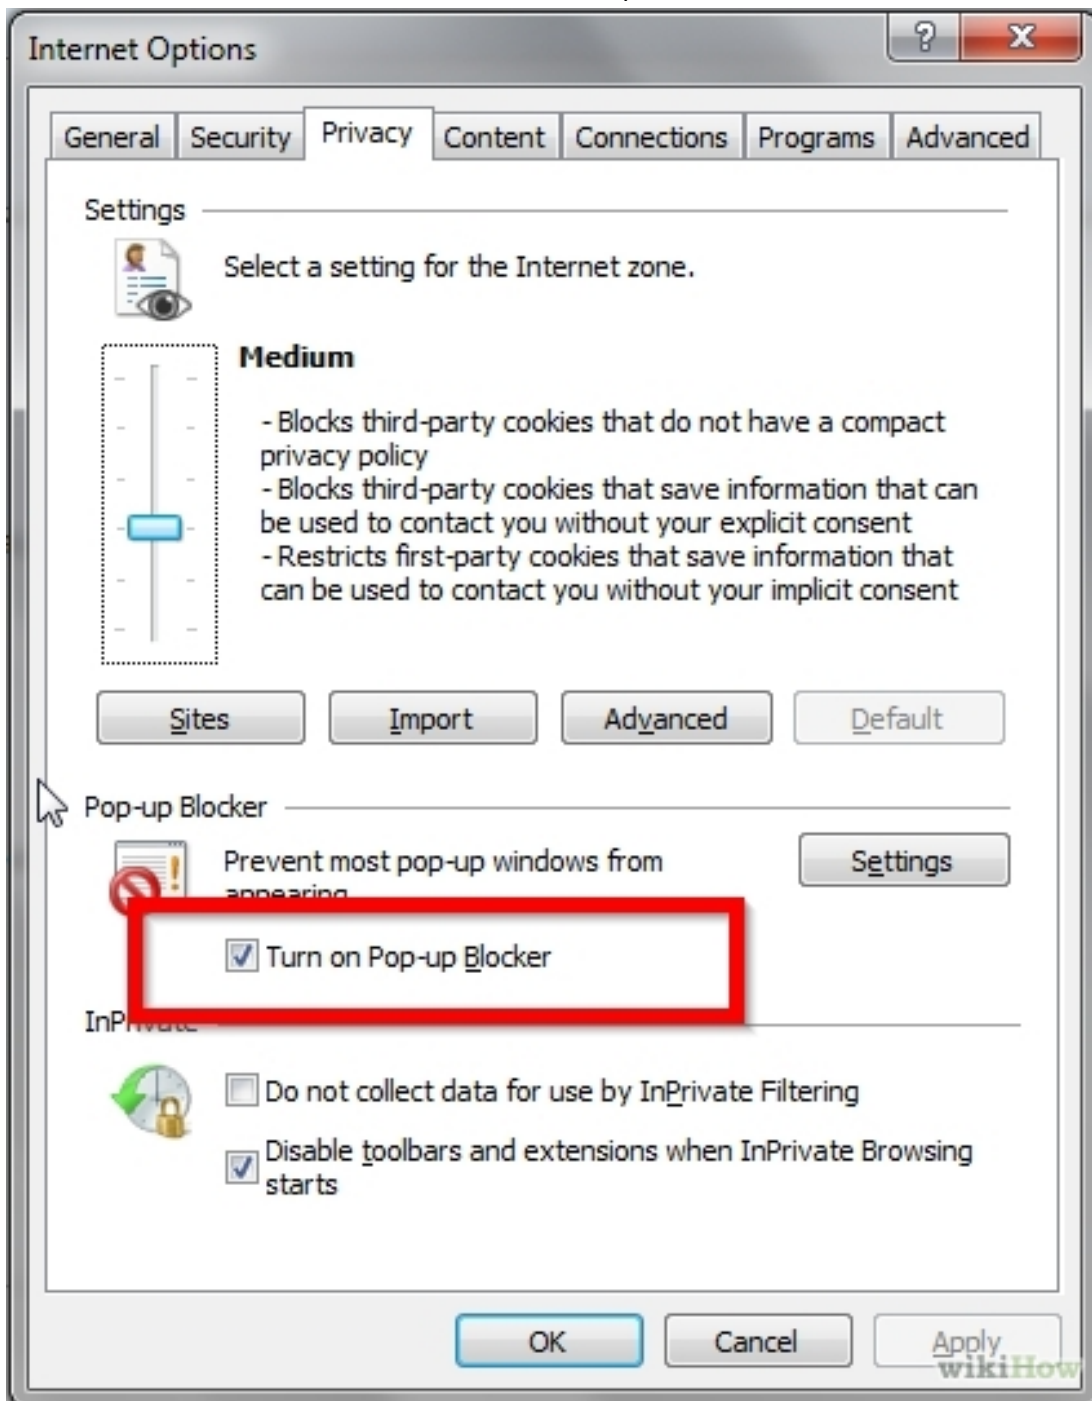

1
Click the "Internet Options" button.

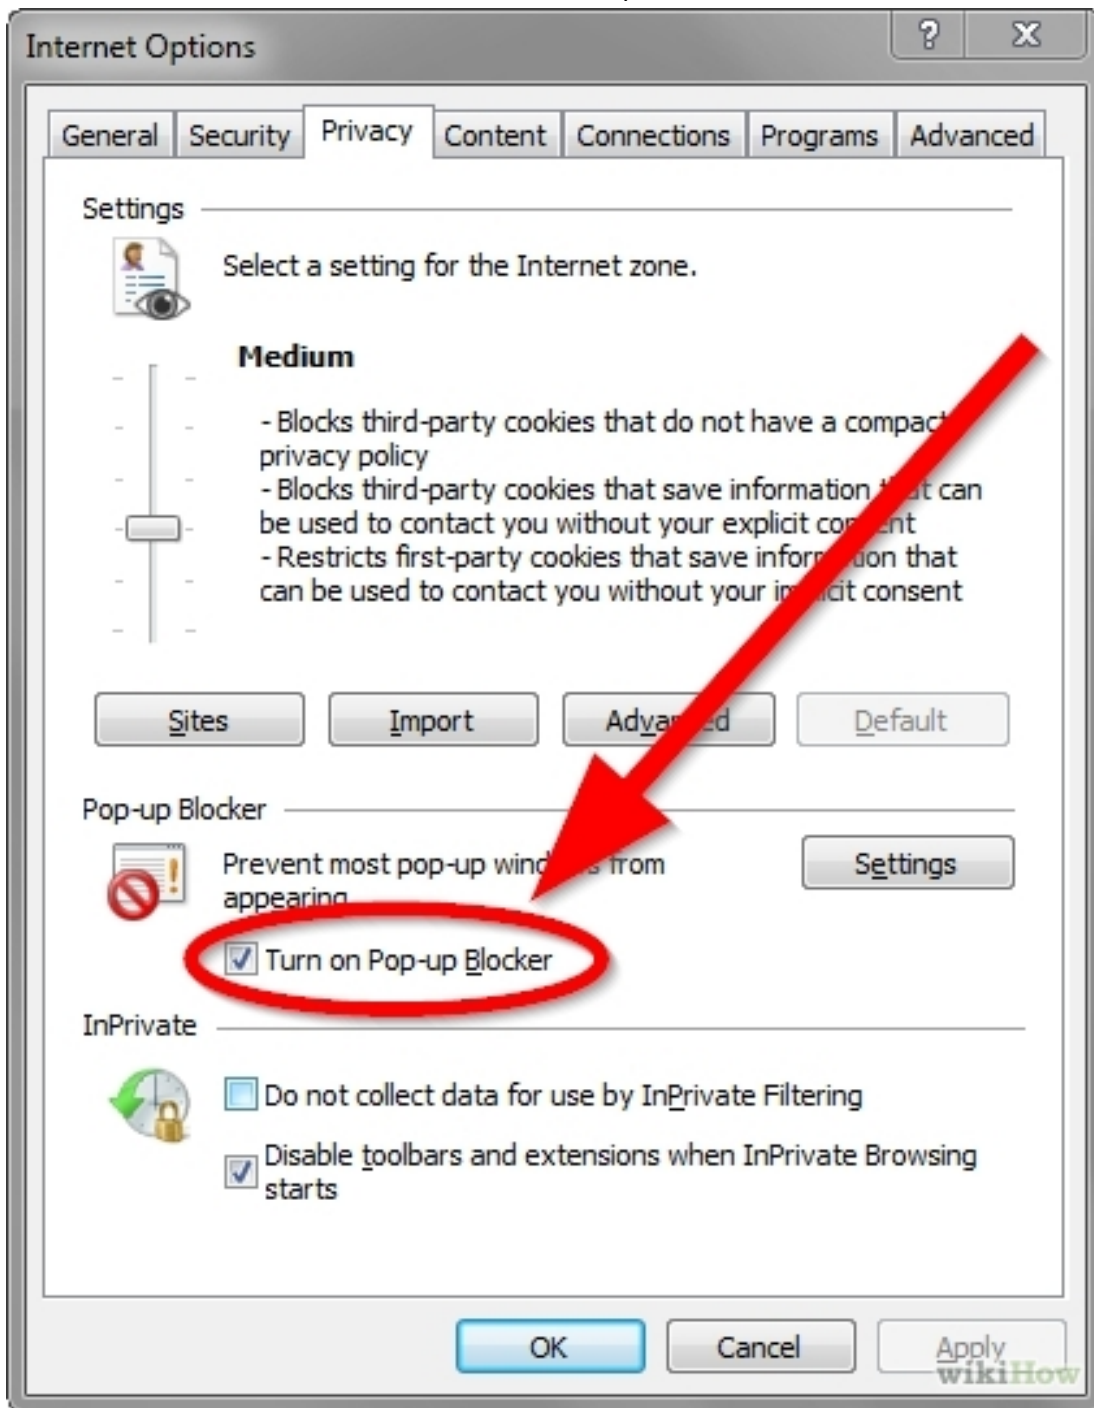

Click the "Privacy" tab.

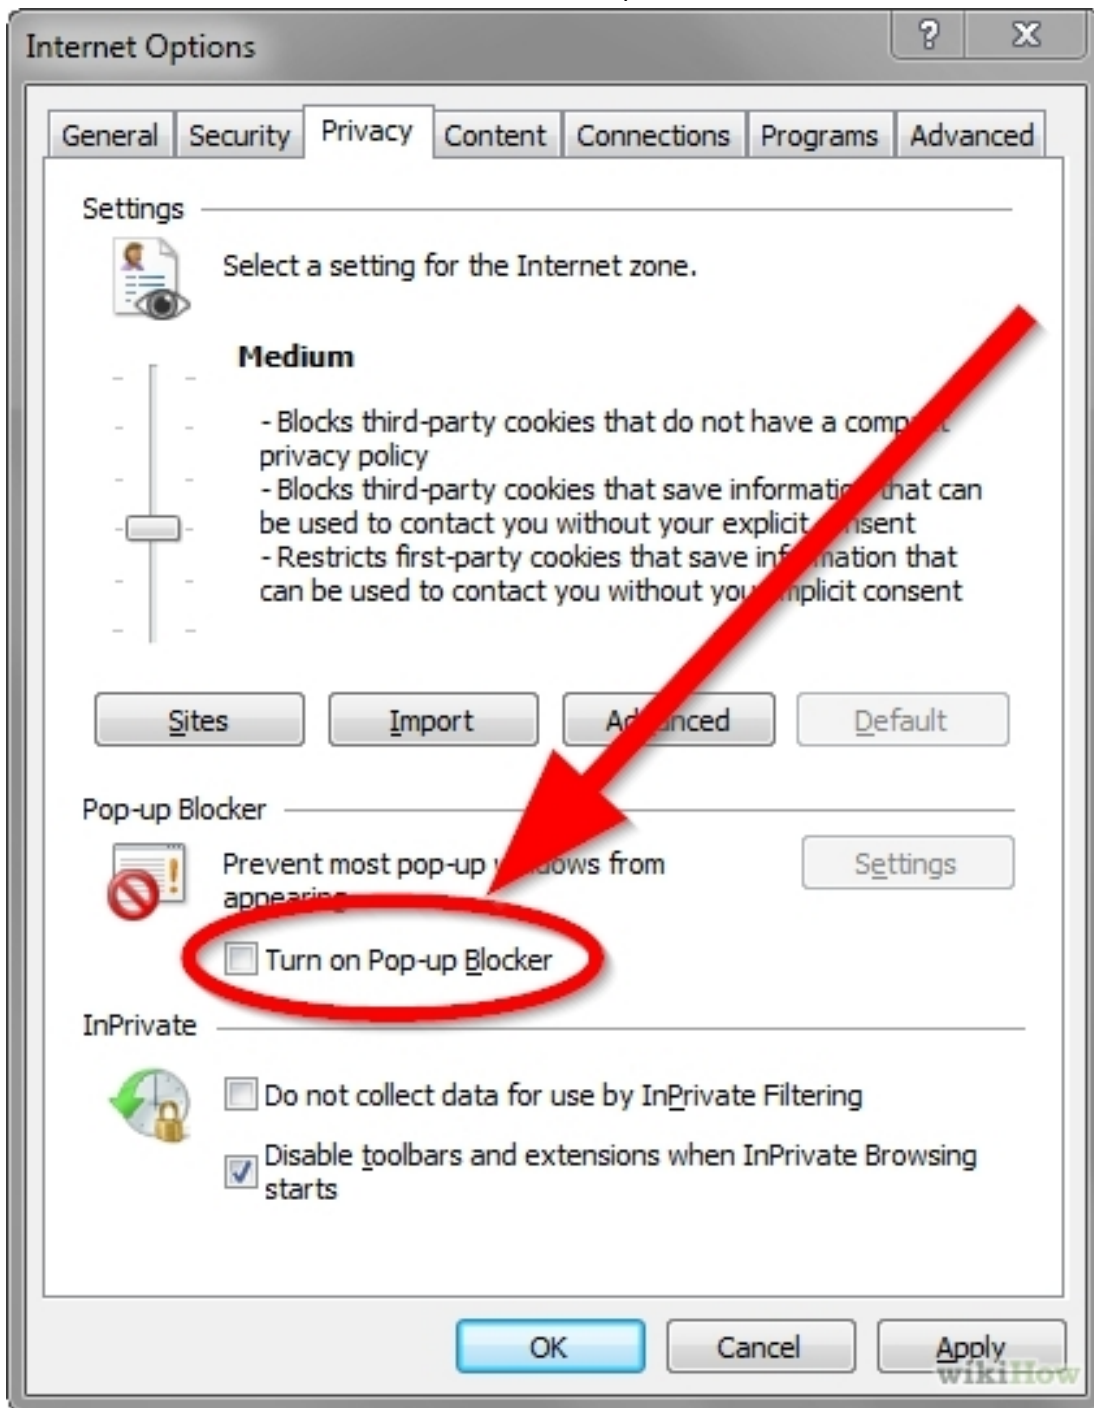

Locate the line option that says "Turn on Pop-Up Blocker".

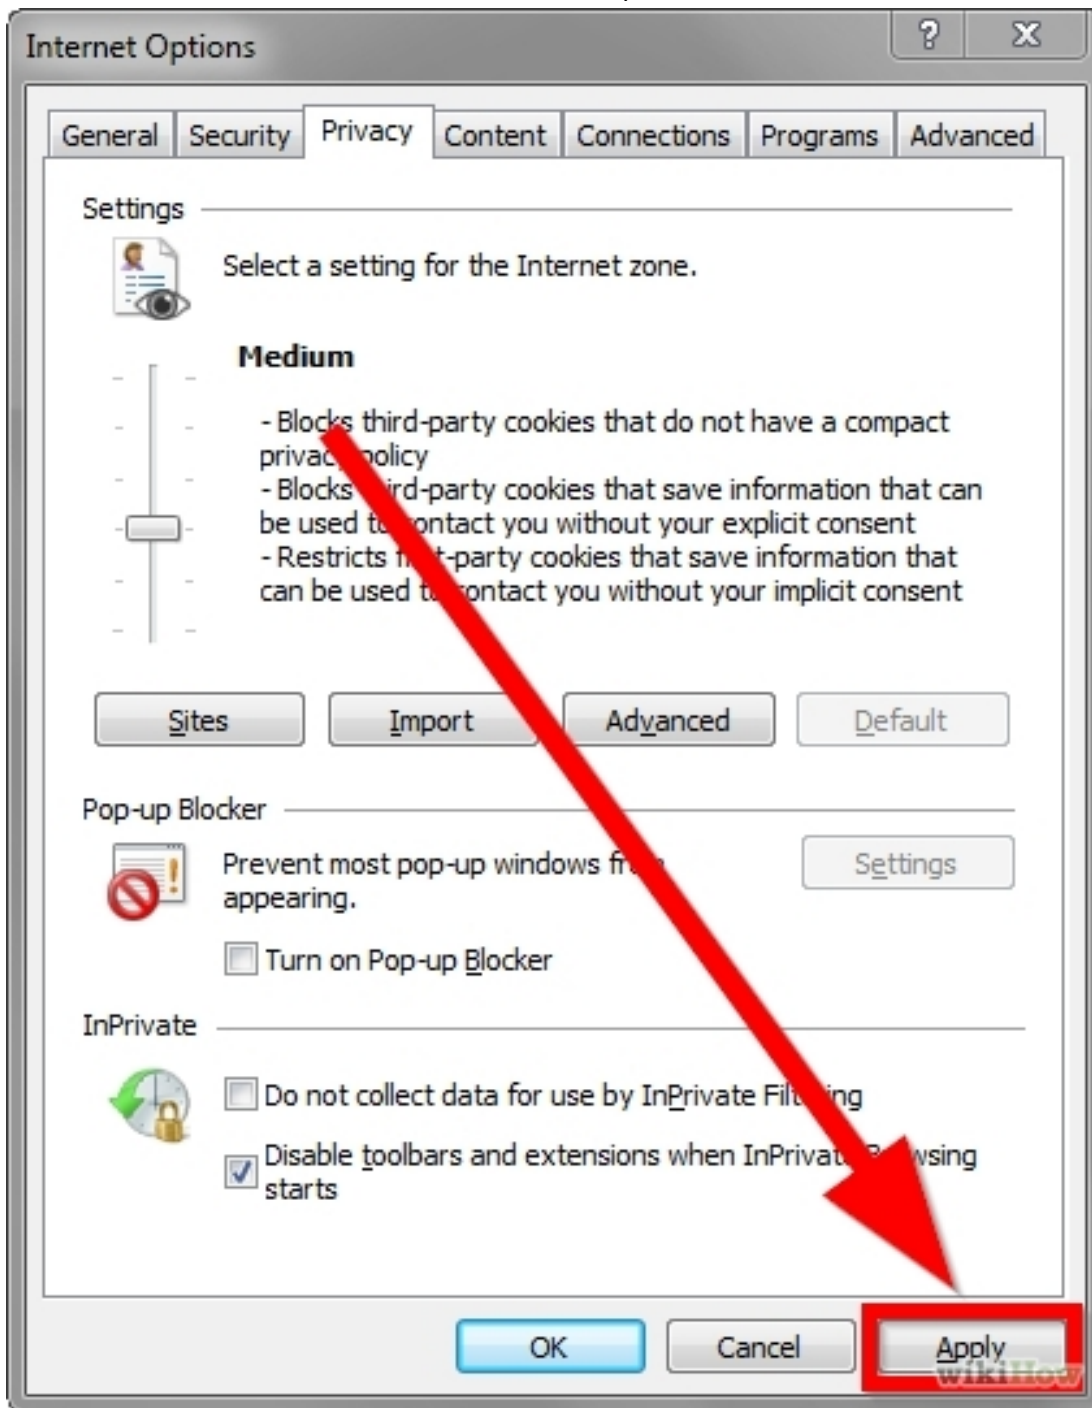

Look at the button to this option. If there is a checkmark (which there should be), continue to next step

Click the box with the checkmark in it, to the left of the button labeled "Turn on Pop-Up Blocker" to remove the checkmark.

Click the "Apply" button in the bottom of the Internet Options screen.

Click the "OK" button to save your work and, essentially, turn off your Internet Explorer Pop-Up Blocker.
